Topeka, KS | (785) 588-2253 | engsean785@gmail.com | [linkedin.com/in/engseanlee](https://www.linkedin.com/in/engseanlee)

PROFESSIONAL SUMMARY

PMP-certified enterprise strategy and business analysis professional with a track record spanning project delivery, governance, and cross-functional planning in hybrid Agile/Waterfall environments. Skilled in translating strategic priorities into actionable roadmaps, initiatives, and business cases, with hands-on experience developing Generative AI agents and Large Language Model (LLM)-based automation tools to streamline planning and delivery workflows. Currently pursuing an MBA in IT Management to deepen a path toward AI-enabled enterprise strategy.

CORE COMPETENCIES

Strategy & Planning: Enterprise Roadmapping · Strategic Alignment · Business Case & Cost-Benefit Analysis · Vendor Evaluation · 12-Week Planning Cycles

Project & Program Delivery: Enterprise PMO · Hybrid Agile/Waterfall · SDLC · Risk Mitigation · Change Management · Governance & Reporting

AI & Automation: Generative AI (GPT) · AI Agent Development · Large Language Models (LLM) · Prompt Engineering · Claude · ChatGPT · Microsoft Copilot · Power Platform (Power Apps, Power BI) · Process Automation

Tools: MS Office · SharePoint · Power BI · Power Apps · Tracker (ITSM) · ConnectWise · KnowBe4

Industry Knowledge: Health Insurance · Financial Services / Banking

PROFESSIONAL EXPERIENCE

Blue Cross Blue Shield of Kansas

Topeka, KS

Enterprise Planning & Alignment Analyst I

Sep 2025 – Present

- Partner with stakeholders across the enterprise to translate strategic priorities into actionable initiatives, roadmaps, and 12-week planning cycles.
- Drive initiative planning — defining scope, estimating resources, building schedules, and identifying dependencies — in coordination with the PMO as initiatives move from strategy into execution.
- Facilitate cross-functional meetings to build consensus on priorities, scope, timing, and resource needs across business and IT stakeholders.
- Evaluate and prioritize initiatives through business cases, cost-benefit analysis, and vendor assessments to support leadership decision-making.
- Developed Generative AI agents on Microsoft Copilot — a Sentence Agent for content editing and refinement, and the CP3 Minutes Agent for automated meeting-minutes summarization — to support planning and documentation workflows.

Project Manager / Project Analyst — Enterprise PMO

Dec 2023 – Sep 2025

- Progressed from Project Analyst to Project Manager, driving enterprise project delivery across IT, operations, and compliance in alignment with strategic goals and regulatory standards.
- Developed project plans, budgets, risk assessments, and governance/reporting frameworks that strengthened executive visibility and accountability.
- Partnered with senior PMs and executives to align initiatives with enterprise strategy and regulatory compliance; led vendor engagement and cost analysis.
- Championed hybrid Agile/Waterfall practices, adapting methodology to project needs across diverse business functions.
- Led enterprise-wide rollout of Duo and 1Password across the organization's 700+ employees, paired with a Data Loss Prevention (DLP) implementation, to strengthen security posture and compliance.
- Developed a Generative AI (GPT) planning coach and an LLM-based automated documentation generator to streamline project estimation and initiative documentation workflows.

Project & Compliance/Risk Intern

Aug 2022 – Dec 2023

- Built foundation in enterprise project management and IT compliance; supported scheduling, documentation, and risk assessments, and contributed to security awareness and regulatory alignment, including compliance audits, phishing simulations, and access reviews.

Earlier Roles: Technical Support Specialist, NCS Midwest (2021–2022) • ACE Consultant, Bradford & Galt (2018–2020)
